

NORTH SHORE
GLASS SCHOOL

Creative GLASS CLASSES

Glassblowing • Flamework
Stained Glass • Sandblasting
Fused & Slumped Glass

Welcome!

North Shore Glass School proudly offers artists of all ages and experience levels an opportunity to enjoy the ancient art of working with glass.

Whether you're a novice looking to explore a new creative avenue or an experienced artist honing your skills, our dedicated instructors will not only help you learn the techniques but also gain a deep appreciation for the interplay of light, color, and form that glass offers.

Through summer workshops, private and group lessons, special event bookings, team building programs, and evening socials, NSGS provides an authentic and immersive experience in the captivating world of glass artistry.

In-studio Sessions

Take public or private classes or schedule a special event with us in studio. From birthdays and date nights to family outings or team building events... the glass studio offers a dynamic and engaging space where imagination knows no bounds.

Summer Workshops

Weekly summer workshops for kids ages 8-17. Students end the week with an array of finished glass products, and newly acquired creative skills.

Scout Programs

Rally the troops and head over to NSGS to learn fused glass or flamework and earn your glassworking badge.

Mobile Studio

From single workshops to weekly enrichment, North Shore Glass School will come to you! Our mobile fused glass and sandblasting sessions are great for schools, senior care facilities, businesses, breweries, restaurants, and birthday parties!

16 Proctor Street, Salem, MA 01970

Glassblowing

Learn the ancient art form of crafting glass using blowpipes, your breath and molten glass.

Flameworking

Using a torch at temperatures around 3000 degrees Fahrenheit, the glass becomes fluid allowing the user to create beautiful objects.

Pendants and Pints

Create glass pendants with your friends at your favorite local bar! Scan the QR code for more.

Fused and Slumped Glass

Create jewelry, bowls, plates, coasters and more by cutting, grinding and arranging glass into fun, functional pieces.

Stained Glass

Design, cut and solder glass to create colorful, sun-splashing window displays.

Sandblasting

Design, cut and sandblast unique vases, panels, cups and more - using high speed abrasive to create artful, frosted-finish pieces.
